Introducing Mettronic CareLink™ for Pacemakers, the technology trusted industry-wide for monitoring over 100,000 ICD patients. CareLink™ for Pacemakers can reduce office visits by allowing you to conduct remote patient check-ups comparable to in-office visits without the patient leaving home. Compared with TTM, CareLink check-ups are easy for patients and convenient for clinics, requiring no nurse or technician on the line. The CareLink Monitor transmits detailed device reports to a secure website that you can access anytime, anywhere. Visit [www.carelinknetwork.com](http://www.carelinknetwork.com).
